ASSIGNMENT – 1

NAME – KAPAROTU VENKATA SURYA THARANI
USN – 22BTRAD018
BRANCH – CSE (AIDE)

1. Write a Scala program to print "Hello, world" and version of the Scalalanguage.

Solution:

Scala Code-1:

```scala
object HelloWorld {
  def main(args: Array[String]): Unit = {
    println("Hello, World!")
    println("Scala version: "+util.Properties.versionString)
  }
}
```

Sample Output:

Output:

```
Hello, World!
Scala version: version 2.13.8
```

Scala Code-2:

```scala
object Hello extends App{
  println("Hello World")
  println("Scala version: "+util.Properties.versionString)
}
```

Sample Output:

Output:

```
Hello World
Scala version: version 2.13.8
```
